DATE

Bryant Service Club:

It certainly, was a nice surprise to receive a package from that well-known candy store, Gibsons. Little do you realize how much we appreciate eating something besides a nickel candy-bar or what is now this pencil.

It was just about six months ago, while on leave in Prov. that I rolled out to the City - dined with "Prof" Shore and his wife. We discussed the war then, and I would also like to be back in Prov to discuss it again.

All kidding aside it is a wonderful experience and it makes us realize the importance of a good sound government.

At present I am working in an office and hope to continue in it. The work is rather routine but I guess everything in the Army is pretty much that way.

Will close and hope to be back in Providence before too many months.

Sincerely
Bill W. Coughlin
